SKILLS

Programming Languages: Python, Java, JavaScript, TypeScript, C/C++ (Elementary Proficiency), PHP (familiar).

Web Development: React, Node.js, HTML/CSS, Tailwind CSS, RESTful APIs, Express.js (familiar).

Databases & Tools: Eclipse, MongoDB, MySQL, PostgreSQL (familiar), Postman.

Data & ML: Machine Learning, Data Visualization & Analysis (python).

UI/UX & Design: Figma, Canva.

DevOps & Cloud: Linux, Git, Docker, CI/CD, Azure, AWS Virtualization

Additional: Problem-Solving, Agentic AI (basics).

PROFESSIONAL SUMMARY

Enthusiastic and results-driven IT professional with experience in web development, DevOps, cloud technologies, and AI model evaluation. Demonstrated ability to learn quickly, execute hands-on projects, and collaborate effectively in team environments. Eager to contribute technical expertise, creativity, and a growth mindset to develop impactful technology solutions.

EXPERIENCE

Freelance Web Developer | August 2024 – September 2024

- Developed responsive and user-friendly web applications using HTML, CSS, and JavaScript.
- Built interactive UI components with a focus on responsive design and cross-browser compatibility.
- Implemented JavaScript-based features to improve user experience and website functionality.
- Collaborated with mentors to debug, test, and optimize web applications for better performance.
- Applied front-end development best practices to write clean, reusable, and maintainable code.

LLM Post Training Intern | Ethara.ai | February 2026 – April 2026

- Evaluated and ranked LLM-generated responses for accuracy, reasoning, and instruction adherence.
- Identified hallucinations, inconsistencies, and safety issues to improve AI response quality.
- Contributed to LLM post-training through prompt-response evaluation and quality assurance.
- Collaborated with the AI team to ensure high-quality annotated data and consistent evaluation standards.
- Enhanced AI model reliability by delivering high-quality response evaluations aligned with post-training standards.

DevOps Intern | HCITech – CTG Infra Team | April 2026 – Present

- Undergoing structured training in Linux administration, Git, CI/CD, containerization, cloud fundamentals, and infrastructure automation.
- Completed 10+ hands-on Proof of Concepts (PoC's) across Linux administration, shell scripting, networking, virtualization, and DevOps technologies, strengthening expertise in infrastructure automation and system operations.
- Performed hands-on exercises in VM management, package administration, process monitoring, troubleshooting, and automation concepts.
- Collaborated with mentors and team members to understand enterprise infrastructure operations, access management, incident workflows, and deployment methodologies.

PROJECTS

- **Encrypt&Dcrpt: (Python :Base64, Tkinter) | October 2023**

Developed a Python-based Encryption and Decryption application using the Vigenère Cipher algorithm, with Base64 encoding and a Tkinter GUI for secure and user-friendly text processing.

- **Credit Risk Management App : (Machine Learning) | March 2024**

This project aims to build a hybrid machine learning model that combines **classification** (to predict whether a borrower will default) and **regression** (to estimate the potential default amount). The final output is the Expected Loss, which provides a more insightful measure of financial risk than classification alone.

- **Server-Less Authentication : (MERN Stack) | September 2024**

Developed a serverless authentication application using the MERN Stack (MongoDB, Express.js, React.js, Node.js), implementing user signup and login functionality with secure credential storage in MongoDB for authentication and user management.

- **UniFY - (College Social Media Application) | February 2025**

Developed a full-stack university-exclusive social media platform using the MERN stack (MongoDB, Express.js, React.js, Node.js). Collaborated with a team using Git and GitHub for version control and feature integration. Built responsive user interfaces, developed RESTful APIs, and integrated MongoDB for secure data management. Contributed to authentication, profile management, and post-sharing features while following collaborative development practices

- **Sentinel AI – Real-Time Weapon & Criminal Detection System (Major Project)**

Developed an AI-powered surveillance system in a 4-member team using **YOLOv8**, **DeepFace**, **FastAPI**, **OpenCV**, **MongoDB**, and **TypeScript** for real-time weapon detection, face recognition, and instant Telegram alerts. Contributed to AI integration, backend APIs, dashboard development, and collaborative feature implementation using Git/GitHub

EDUCATION

MALLA REDDY UNIVERSITY

September 2022 – July 2026

B. Tech in Computer Science and Information Technology | 9 CGPA

SRI CHAITANYA JUNIOR KALASHALA - 2022

MPC | 94%

GOOD SHEPHERD HIGH SCHOOL-2020

SSC | 95%

ACHIEVEMENTS

- Runner-Up in speakathon : Secured second place in Speakathon conducted at Malla Reddy University.
- Made it to the final rounds of 2 hackathons, gaining hands-on experience in team-based problem-solving and fast-paced development.
- Demonstrated consistent learning and problem-solving through contests, hackathons, and project-based development with team collaboration.

INTERESTS

- Digital Art and UI/UX Design: Created user interfaces for personal projects using Figma and Canva.
- Reading and Writing: Read web novels and short stories and technical blogs through Medium and WIRED.
- Tutoring and Mentorship: I Used to Teach Programming for the Juniors and conduct Online sessions on their personal development.
- Passionate about fitness, with hands-on experience coaching individuals in gym training, exercise techniques, and workout plan.

CERTIFICATIONS

- Successfully Completed Programming in Java Certification through NPTEL with Roll ID : (NPTEL24CS43S1057403309)
- Successfully Completed Cloud Computing Certification through NPTEL with Roll ID : (NPTEL24CS118S1050206031)

POSITIONS AND RESPONSIBILITIES

- **Class Representative-Department of Information Technology B.Tech 1st Year to 3rd Year.**
 - Acted as a liaison between students and faculty throughout semesters.
 - Resolved academic issues and facilitated clear communication channels.
 - Coordinated departmental activities, feedback collection, and event planning.
- **Team Lead –B.Tech Major Projects (1st to 4th Year)** Lead technical development and coordination across all project phases
 - **1st Year: Encryption&Decryption using Vernier Cypher Technique** – to encrypt and decrypt data using alphabets reordering.
 - **2nd Year: D-Sale** – An Ecommerce Website Prototype which was useful for farmers to sell crops online
 - **3rd Year: UniFy** –developed a college social media kind of application to increase the interaction between students.

PERSONAL DETAILS

- Date of Birth: 25-08-2005
- Gender : Male
- Marital Status : Single
- Address : Adarsh Nagar Opp IDPL colony, Hyderabad, Telangana 500037.
- Nationality – INDIAN
- Languages Known - Maithili, Hindi, English, Telugu.

DECLARATION

I hearby declare that the information provided is true to the best of my knowledge and belief.
